## Partnership extended!

**For more than 10 years, Gmeinder Getriebe has been a reliable and trusted partner for Alpha Trains in the field of gear maintenance, optimization, and repair. Now comes the continuation of the cooperation.**

In the last days, the two companies have signed two more framework agreements for cooperation.

*"We are very pleased that our successful cooperation has now been officially extended with two more framework agreements for gearboxes overhaul. This sets the course for the future and ensures that the overhauls of the wheelsets are carried out by Gmeinder as service experts",* says Dr. Wolfgang Fischer, Managing Director of GGT GMEINDER GETRIEBETECHNIK GmbH.

*"Over the last 10 years, Gmeinder Getriebe has been a key service provider of Alpha Trains delivering high quality overhauls on the large number of gearboxes owned by Alpha Trains. Such work is essential to deliver the high reliability on our locomotive fleet that Alpha Trains pursue. We are therefore happy to extend this cooperation further with these new long-term agreements entered with Gmeinder Getriebe",* adds Fernando Pérez, Managing Director of Locomotives Division in Alpha Trains Group.

### About Alpha Trains

Alpha Trains is the leading rolling stock lessor in Europe. A total of 130 employees from 17 countries work in offices in Luxembourg, Antwerp, Cologne, Madrid, Paris and Warsaw. Alpha Trains owns more than 950 locomotives and passenger trains and offers tailor-made leasing solutions, comprehensive know-how in maintenance and vehicle repairs as well as long-term experience in the financing of new-build projects. Alpha Trains' fleets are in use at many public and private operators in 22 European countries. Alpha Trains' shareholders are APG, Arcus European Trains, PGGM and Swiss Life.

### About Gmeinder Getriebe

GGT GMEINDER GETRIEBETECHNIK GmbH is the Europe's leading manufacturer of gearboxes for rolling stock, located in Mosbach, Baden-Württemberg, Germany. The company has a history of 110 years being first established in 1913. In the modern history, the company has focused on development, manufacturing, service and overhauls of gearboxes for railway vehicles. Gmeinder Getriebe employs more than 100 staff and the current year turnover is EUR 17 million. Beside German customers, Gmeinder exports its products and services to many EU countries as well as to Middle East and Asia. Since 2019 it belongs to the engineering group Wikov Industry, one of the leading manufacturers of mechanical gearboxes in Europe.
